

# One Heart

UFO

The elevator it goes right to the 21st floor  
She's steppin' out and she walks right through the president's  
door

In this world you know you're just a fool to take  
He'll give you something adds up to nothing  
It's your heart that breaks

(1) One heart stands alone  
Stripped right down to the bone  
One heart easy to break  
/How much more can you take/Tell me now that this is just a mis  
take/

He sits up there like a king oh in the company chair  
He'll cast you right but you know it's just so unfair  
So you're one more number now in his telephone book  
It shows nothing you've got something from the pleasure he took

(1) Repeat twice

So you think you're found it, your one big break, got what it t  
akes  
And you're tough enough to spot all those fakes, your first mis  
take  
But you've got something that survives  
A burnin' heart stays alive  
And now I wish you could do with me  
Oh baby you just couldn't see

[INSTRUMENTAL]

He'll give you your something, adds up to nothing, and your hea  
rt breaks

(1) Repeat three times then start fading
