

Serenade

UFO

Hey hey put me in your pocket for a day
Let me hold the rhythm of your sway
Let me steal you with this serenade, serenade
Hey hey, I could see the magic in your eyes,
There's a fire beneath these spanish skies,
Let me steal you with this serenade, serenade
(instrumental)

Hey hey, let me mix you up a recipe, here's doctor love to give
you therapy

Let me steal you with this serenade, serenade
Out on the beach, blueprint of your soul, with the midnight of
the city

A thousand eyes look down from space
(more instrumental)

Hey hey, put me in your pocket for a day, let me hold the rhythm
of your sway

Let me steal you with this serenade, serenade
(more instrumental, fading out eventually)
