

If sometimes
I could make you happy
if sometimes
you're feeling small
the truth is mine just to
do what I wanna do
this love is mine just to
say what I wanna say
Out on this lonely road
cold coffee and a cigarette
making a long distance call
I'm on some losing bet
We're not going down
we're not gonna take it baby
we're not going down
anyway you want it
we're not going down
we just got to be together now
and if you're feeling hollow
Hey, hey now swallow
And if your love's been lost and forsaken
if you've been left
passed up and broken too
the choice is yours just to
be where you wanna be
and the truth is yours just to
see what you wanna see
Out on this lonely road
where the black top never ends
we're racing up the hills
but we're losing it on th bends
We're not going down
we've just gotta be together baby
we're not going down
we ain't gonna take it now
we're not going down
we've gotta be there babe
and if you're feeling hollow
Hey, hey now swallow
you've got to swallow babe
Solo
We're not going down
we've gotta be there together babe
we're not going down
anyway you want it now
We're not going down
we've gotta be there
We're not going down
we've just gotta be together babe
and just your crazy ways
oh there's not an ordinary day
oh no
