

# Wonderland

UFO

Kill switch tic tac go room  
My war will never end cause I am going to the moon  
I am going to a wonderland you can come too  
We can do whatever you want to now let me share a  
little something  
We can stay young and keep this mother fucker bumping  
But in time she might get jealous and in case you  
haven't notice  
She is a little bit selfish see me and time we never  
get along  
You say you are running and I wonder if you will find a  
home  
I tell her stop you need to catch a breath  
Don't rush you got a few years left  
Me and time we were stuck and I wonder where  
Everything was . till she came with another plan  
She said I will never be shit but in wonderland I just  
say fuck it  
Yes I am a fucking hero heating up the world when it  
gets to sub zero  
We go anyway the wind blows .. I am so out of space  
like I have been in a ...  
But I am doing major damage like a tortilla now that is  
imagination  
I don't wanna grow up I better stay in vacation  
wonderland  
chorus  
Wonderland my favorite place wonderland where we can  
stay  
Wonderland my favorite place wonderland where we can  
play  
Wonderland my favorite place wonderland where we can  
stay  
Wonderland my favorite place wonderland where we can  
play  
I am in my youth and I got a few years left  
The way of carefree life call . when the flight left  
Way to the left gone to the West  
In my past memories I am always reminisce  
Think about old days don't wanna get older  
No way it's ok we can stay  
Under landed play never thinking about our age  
20 ears old sounds strange to land out of adulthood  
Is not my place where I would vacate if I had my way  
but  
I am happy that I am here cause life gives and takes  
So I am always living life like it was my last day  
Got time .. on my mind cause it passes away  
I realize that life is too short to wait carpe diam  
My mentality I cease the day find a conscious in my  
brain  
When I meditate seconds minutes hours and days  
Weeks months years and decades memories are lost in a  
no pay ...  
Every day is another day but anticipates but in  
wonderland the time will never fly away  
Wonderland where we can stay where we can play

I am staying young till I am old in my favorite place  
chorus  
Wonderland my favorite place wonderland where we can  
stay  
Wonderland my favorite place wonderland where we can  
play  
Wonderland my favorite place wonderland where we can  
stay  
Wonderland my favorite place wonderland where we can  
play  
Got all this young I am too old to run  
I heart it all the time juvenile the liquid minds  
Never will I fall just take me to a place where music  
lives  
Age is just a number I am hip hop and it always lives  
My soldiers give it up just because I am getting old  
Drop the man is hitting on they say I can't  
I lose my eyes I am probably drifting into a place I  
call wonderland  
Yes I can be a star and the sky is a shutting star  
Living in logic .. my minds everything in life  
Give it a call and let it charge you like .. my time  
Is running out held on don't even try it  
70s babies my old has start to riot  
Wonderland Is my place  
Wonderland is my escape  
My escape from the ghetto I am tired ... like heavy  
metal  
Got me riding my deepest thoughts is instrumental  
Is my place of relaxation wonderland I just give away  
Hoping everything is gonna be ok fly way evil spirits  
Say .. got a better plan I am flying .. wonderland  
already pack my bag  
Don't try to catch me cause you can't but this  
youngsters need some guidance  
Lead them to the path hip hop was so long mother fucker  
do the math  
Cause I am splitting like I am Moses of the land  
chorus  
Wonderland my favorite place wonderland where we can  
stay  
Wonderland my favorite place wonderland where we can  
play  
Wonderland my favorite place wonderland where we can  
stay  
Wonderland my favorite place wonderland where we can  
play
