

You'll Get Love

UFO

I heard you tiptoe in last night
Cross the porch stars were bright
Past my room and into yours
Sliding locks and chaining doors
* you'll get love
My kind of love
(you'll get love) / (I'll give you love)
The love you give to me (yeah)
I see the men that come and go
Through a hole that doesn't't show
Every day we pass in the hall
I'm like a picture on the wall
* repeat
[instrumental]
I hear your giggles and little sighs
Close my eyes and fantasize
But as you're sleeping a room away
In the dark you hear the jackal play
