

Candle Song

Ugly Kid Joe

Pray by the candle and I hope to see light
Wait for the moment but it's never right
So now I'm sailing on the oceans so wide,
I'm all alone, me and my day dreams and I

Pray by the candle and I hope to see light
Wait for the moment but it's never right
So I'm the captain my ship's got a hole in the side
I'm all alone, me and my daydreams at night
Can you see me walking through the trees?
Can you hear me laughing in the breeze?
Can you see me walking through the trees?
Can you hear me laughing in the breeze?

Pray by the candle and I hope to see light
Wait for the moment but it's never right
Across the water I watch my ship waves goodbye
I'm all alone me and my daydreams at night
