

# Decepticons

Ugress

They cannot feel  
Coz they're made of steel  
They can crush your bone  
Easy like a stone  
Some walk on wheels  
And some of them can heal  
You when you wounded and lost  
Before you turn into dust

Its not a pretty sight  
To watch them in a fight  
Its hard to stay alive  
The year 2005  
This is the story you made  
About the boy the saved  
Then delivered him home  
From the decepticons

I  
I'd like to stay  
A while and play  
A while and stay  
And i  
I'd like to stay  
A while and play  
A while and stay

They need no fuel  
And in their world they rule  
And if they're told what to do  
To make your wishes come true  
Oh mega supreme  
Kinda belongs to the cream  
His words can drive you insane  
And transform into your pain

Its not a pretty sight  
To watch them in a fight  
Its hard to stay alive  
The year 2005  
This is the story you made  
About the boy the saved  
Then delivered him home  
From the decepticons

I  
I'd like to stay  
A while and play  
A while and stay  
And i  
I'd like to stay  
A while and play  
A while and stay

"do not grieve. soon, i shall be one. with the matrix."

They have to dear

To put away all fear  
No need to come along  
If you're not fearless and strong  
They hate to loose  
And if they could choose  
They'd rather stop to exist  
Than end up crushed in your fist

Its not a pretty sight  
To watch them in a fight  
Its hard to stay alive  
The year 2005  
This is the story you made  
About the boy the saved  
Then delivered him home  
From the decepticons

I  
I'd like to stay  
A while and play  
A while and stay  
And i  
I'd like to stay  
A while and play  
A while and stay
