

## Fail To Grow

Ugress

Easily driven  
Madly insane  
Threatening shadows  
Deep in my brain  
There is not enough air  
To clear out the smell  
Tied down by these  
Ripping hands

Thieves in the temple  
So i cover my face  
A million fingers spread  
All over the place  
I'm filled up inside with this  
Strangling taste  
Every catch of breath is like a  
Suffocating waste

Violently drowning  
In flashes of flesh  
Screaming silence  
Mentally messed  
Still coming on to me  
I drown from within  
The shadows will vanish  
If i wash away my skin

To hard to think  
The noise is too loud  
Everyth thought is added to a  
Screaming mental crowd  
There is no escape  
And i can't break the spell  
Eternaly held back and trapped  
Inside my private hell
