Fascination

Uh Huh Her

Up in the same situations I think back to where we used to be I'm guessing your eyes are focused on the thrill But I've been thinking about you And days I want us to

How can you wait for love to be over How can you look away Why do we say it's loves fascination Why do we walk away

I will leave the dark behind to save you But then I think you'd rather be just walk away Just keep in touch

I can't find my way A lost maze But I've been thinking about you In a way that I can't face

How can you wait for love to be over How can you look away Say we stay for love's fascination Why do we want to stay
