

# Innocence

Uh Huh Her

I believe in fear, I believe in love  
I believe in things that we can't touch  
And you talk about the way I always dwell in dreams  
And you talk about the fact that nothing is as it seems  
I believe in peace though now it's gone  
Never mind the face that we've become  
And you talk about the weather like nothing's going on  
And we talk about ourselves like we're the only ones

I look back  
Back to our innocence  
We need a little comfort  
I look back I look back (2x)  
Wander, back to our innocence  
We need a little comfort  
I look back I look back (2x)

Hey, that love you gave  
Tell me how does it play?  
Edge not far away without those lonely days  
Hey, tell me what can I say?  
Please don't run away  
Perfect harmony  
What have you done to me?

I look back  
Back to our innocence  
We need a little comfort  
I look back I look back (2x)  
Wander, back to our innocence  
We need a little comfort  
I look back I look back (2x)

Bridge:  
I did it right this time around  
Stand up  
And time begins again  
We'll do it right this time around  
Turn your lights out  
And give up the dark

I did it right this time around  
Stand up  
And time begins again  
We'll do it right this time around  
Turn your lights out  
Just give up the dark

I look back  
Back to our innocence  
We need a little comfort  
I look back I look back (2x)  
Wander, back to our innocence  
We need a little comfort  
I look back I look back (2x)  
Wander, back to our innocence  
We need a little comfort

I look back I look back (2x)
