

Interconnect

Uh Huh Her

We're never gonna break again
One more time, I wish you close to the edge
We're never gonna break again
One more time, I wish you close to the edge
We're never gonna break again
One more time, I wish you close to the edge
We're never gonna break again
One more time, I wish you close to the edge

Your love is perfectly entwined
Our love is perfectly entwined

I'm never gonna break again
One more time, I wish you close to the edge
I'm never gonna break again
One more time, I wish you close to the edge
I'm never gonna break again
One more time, I wish you close to the edge
I'm never gonna break again
One more time, I wish you close to the edge

Interconnect, we want it back
Interconnect your love, your heart needs to
Interconnect, we want it back
Interconnect your love, your heart needs to

And I'm gonna break you in, watch you move
I'm getting close to the edge
And I'm gonna break you in, watch you move
I'm getting close to the edge
And I'm gonna break you in, watch you move
I'm getting close to the edge
And I'm gonna break you in, watch you move
I'm getting close to the edge

Your love is perfectly entwined
Our love is perfectly entwined

Interconnect, we want it back
Interconnect your love, your heart needs to
Interconnect, we want it back
Interconnect your love, your heart needs to
