

## Many Colors

Uh Huh Her

My destination, I'll give it all I got  
This realization is long overdue  
I'm fascinated with the way you move  
Your many colors could light up the room

You bring the light of love  
Cause fate leads the way  
When my eyes are closed I think of you  
Cause fate leads the way

Can't see the future, don't know what she'll bring  
I'll sit here waiting one day at a time  
It's complicated, don't know what it means  
I hope the stars will still be aligned
