

## Time Stands Still

Uh Huh Her

I can't believe I can't let it go  
The difference you make, it completely changed me  
And I can't believe I haven't let you know  
But today it's gonna change  
You re-arranged me

Cause time stands still now  
And we're the last ones  
Cause everybody's changing  
And we're remaining

I can't believe I haven't told you so  
I see your face in everything that shines  
I can't believe you were so blind to see  
What a difference it makes to turn back the tables
