

Riding on my Trident with my cycle slut  
Going up to Scouse land but the town was shut  
Gonna ride the ferry to the Isle of Man  
Gonna ride the TT gonna to try my hand  
Hold on here we go hear my motor cut  
500 CC and a cycle slut

Now the sun is shining and we're on our way  
My baby took some time off for a holiday  
Saving all our pennies for some gasoline  
People say we're dirty but I keep my motor clean  
Hold on to me baby I'm going to open up  
500 CC and a cycle slut

My baby sees this fella on a mean machine  
It must be over thirteen hundred CC  
She tells she can't read the name but see if you can  
It was a Kawasaki and it's made in Japan

Hold on to me baby I'm going to open up  
500 CC and a cycle slut

Now the sun is shining and we're on our way  
My baby took some time off for a holiday  
Saving all our pennies for some gasoline  
People say we're dirty but I keep my engine clean
