

Alburn Road

Ulrik Munther

Well if I held the hours in my hand
Had the sun at my command
I could be with you again
And you thought I was lonely
But I, I never felt that way back then

[Chorus:]

Down Alburn road
Under sunset summer skies
You whispered please, remember me
The leaves were golden, when I kissed your
Lips goodbye, you whispered please remember me

Down Alburn road
Oh yeah

Well If I could delay the turning tide
I would bend and twist the time
Just to be there by your side
And I, I didn't believe you when you
Said I was falling, falling for you
Yeah

[Chorus]

It's like you turned a light on
A light upon my world
And I could see, all that's possible
With you right there before me
Shining in the sun, but now your gone
