

# Fake It

Ulrik Munther

I swear you are on my mind  
but I'm surprised to find you here  
And I fear that the fire that burns inside  
of me for you shines through

And so I'm gonna fake it

[Chorus:]

Maybe it's just my wounded pride  
I'm at the point I can't decide  
But I know, I'm running out of air  
If you give me some hope cause  
you know I'm down  
You'll break me in two I swear I'll drown  
And I know it's more than I can bare

And I'm gonna fake it  
I'm gonna fake it yeah

So just behind my eyes the smile  
It dies as I pretend  
But I know that the time has come  
and gone for me to let you go  
Your way

But I'm gonna fake it

[Chorus]

woah oh oh oh  
oh oh oh oh  
yeah yeah yeah yeah

Oh so

[Chorus]

And I'm gonna fake it  
I'm gonna fake it yeah

that i'm gonna fake it yeah  
gonna fake it yeah
