

Heroes In Defeat (Change Your Mind)

Ulrik Munther

When you're a kid
You got heroes
You wanna be someone
Now you're grown and you're older
Your heroes they are done
I have watched as you
Hopes and dreams slowly fade away
You're humbled by your failures
Before they're even made

[Chorus:]

So maybe you should do something about it
Those heroes in defeat you've never doubted
Find your dreams and you might just live them
Don't just be a part of the system

You think you're surrounded by responsibilities
That they won't let you move
Give you room enough to breath
You have heard all the reasons
But you don't know what they mean
Now I know you're not listening
So I'm gonna have to scream

[Chorus]

If you're ever wondering
If life has passed you by
Then my friend you should think again
Cause you have got it all to lose
Right now
