

# I Think I Love You

Ulrik Munther

You're gonna get me into trouble  
But I can't stay away  
Don't care about tomorrow  
You're gonna get me into trouble  
You're the only one I can think about anyway

Night's so long when I'm all alone  
I can't wait to see you again

[Chorus:]  
I think I love you  
I think I love you  
Cause I've been up all night  
Showing all the signs  
I think I love you

You're gonna get me into trouble  
That's just what I need  
That's how I feel baby  
I thin I'm ready for some trouble  
I'm not gonna look back  
Thinking what could have been

Night's so long  
I can't wait for morning to come  
I know this is crazy

[Chorus]

Can't wait to get you alone  
Can't wait to hold you  
Why won't you pick up the phone  
So I can tell you

Night's so long  
I can't wait for morning to come  
I know this is crazy

[Chorus]
