

We are fallen angels from the sky
Fallen for our sins tonight
Thrown out of skies to live our life
Down here in earth

I don't know why he did not understand
Our little prank we did up high above
He thinks taht this is suffering to us
But we are having fun

No more of old man
No moer of his rules
No more of hypocritics
We're destined to descent

We are fallen angels from the sky
Fallen for our sins tonight
Thrown out of skies to live our life
Down here in earth

He did never understand
We are born to fall from sky
We want to live our life tonight
Without the eye that never sleeps

We are fallen angels from the sky

We are fallen angels from the sky
Fallen for our sins tonight
Thrown out of skies to live our life
Down here in earth

He did never understand
We are born to fall from sky
We want to live our life tonight
Without the eye that never sleeps
