

Follow Me

Ultimatum

I'm drifting away, I obey the call

I'm leaving this place, Now it's once and for all

I won't ask more, You taught me the rhymes

That open the door, To your paradise

I'm leaving it all, I'm leaving my past

I need you to hear my call

Follow me, and your sky won't get dark

Follow me, you'll be safe from the shark

Follow me, to the place of your dreams

Follow me, to another reality

Now I am here, Dimension four

With out the fear, Of being left alone

You hear my call, We'll soon unite

Now heal my soul, In your paradise

We both left it all, we both left the past

And now we both hear that call
