

In My Dreams

Ultimatium

I'm walking through the green fields

The sun is shining high

I'm heading for the old pine

that reaches to the sky

In memories of my childhood

Always there the pine

I used to climb the branches

To reach a place that's mine

Now I see my hideout

It's standing still so strong

I'm taken to the feelings

From when I was young

And I'm back in times

With no doors left behind

In everything was joy

And I had peace of mind

And I hope to go back like the rain

To the times when I didn't know sorrow or pain

I go back to my childhood again

To the times when both Black and White

Still were so plain

In my dreams

And we all want to live free one day

Just one day without any fear

Now I wish that my dream would come true

And the magic could still be remained
