

## Any Ole Love

Ultra Naté

I remember those good old days  
When you first became my baby  
Made me feel like a little girl  
You changed my world  
But something happened along the way  
You started acting strange and kind of shady  
Guess you think you've got me where you want  
Trying to be so cool  
Thinking I'll never leave you

You want to have it your way  
And you want to treat me badly  
But I can do without your kind  
Of love at night  
I think I'm gonna wait for the real thing

Any old love  
Your love just ain't good enough  
Any old love  
Your love just ain't good enough  
Any ole love  
Any ole love  
Any ole love

Every day on the phone together  
Telling me that our love was forever  
Love like that was a mystery  
Was all I need  
But now it seems like the fire's gone  
Working too hard to keep this thing together  
I don't want any kind of love  
I think you should move on  
I'd rather be alone
