(1) WAY TO GO

Are you coming down to Earth  
For the convention of the year?  
Everybody is coming from the Universe  
Everybody has to be here  
From the valleys to the mountains  
To the air that we breathe  
From the cold to the fire in me  
There is nothing I want, nothing I want for myself  
There is nothing, nothing for me  
We'll find a new land  
We'll be the new race  
I've got it all planned  
We'll live our life on a happier place  
We're setting off onto the wide open road  
As to final destination, who am I to know?  
You gotta pay due care and attention  
We're setting off to a new dimension  
It's the high and mighty way to go, way to go  
We've got leaders, believers fresh from afar  
Common are the things we're working on  
We're looking to fill the hole in our hearts  
It's something everyday that you just don't see  
Young and old creatures dying to breathe  
Stunned by land bewildered by sea  
We're setting off onto the wide open road  
As to final destination, who am I to know?  
You gotta pay due care and attention  
We're setting off to a new dimension  
It's the high and mighty way to go, way to go, way to go  
You gotta pay due care and attention  
We're setting off to a new dimension  
It's the high and mighty way to go  
Come on, come on  
Let's go to see  
What lies beyond the mystery  
Let yourself go  
Set yourself free  
Let yourself go  
Set yourself free  
You gotta pay due care and attention  
We're setting off to a new dimension  
It's the high and mighty way to go, way to go, way to go  
You gotta pay due care and attention  
We're setting off to a new dimension  
It's the high and mighty way to go

(2) No Place Like Home

Now we're sitting on a star Heaven knows where we are  
It's all wonderful so far and everything good happens  
Now I'm sitting much too far to see how beautiful you are  
To touch your skin, to fall in love with everything that happens  
And now I know there is just  
No, no, no, no, no place like home  
Oh come on, come on now (Yeah, yeah, yeah, yeah)  
Take me home (Can you hear me?)  
Beam me up then put me back down  
Safe upon a planet that I know

I want to hear the thunder crashing down  
To see the rain, to feel the breeze  
Planet Earth, I am missing you  
Upon your land is where I wanna be  
It's everything I have been looking for  
Perfection for beyond my dreams  
And now it's here and will be forevermore  
I just need something to come and bother me  
[Repeat till fade]
