

Pull me from the toaster  
Straight into the roaster  
Fill my head with the stuff  
Brightest dreams are made of  
Bringing me down again  
Bringing me down again  
Bringing me down again  
Bringing me down again  
Duh  
Promising the big guns  
Reward when the light comes  
Screaming from the damage done  
Screaming from the damage done  
Bringing me down again  
Bringing me down again  
Bringing me down again  
Bringing me down again  
Duh  
Butter me up, butter me up  
Butter me up, butter me up  
Butter me up, butter me up  
Butter me up, butter me up  
Butter me up like I know you will  
Cover it up like I know you will  
Better yourself like I know you will  
Breaking the trust like you always will  
Be good for it, you never will  
Be good for it, you never will  
Be good for it, you never will  
Be good for it, you never will  
Butter me up, butter me up  
Butter me up, butter me up  
Butter me up, butter me up  
Butter me up, butter me up  
Duh  
So you think you got the best  
Thought I was like all the rest  
Reaping from the damage done  
Reaping from the damage done  
Bringing me down again  
Bringing me down again  
Bringing me down again  
Bringing me down again  
Duh
