

There
Somewhere out there is a better day
Somewhere out there has to be
Better than today hopes to be
Anyway
To be a part of anything
Shows me what I've missed
To be a part of all the answers...
My wish
Stand there before me
With your emptiness, emptiness
So true to form
So true to all I've missed from you To be a part of anything
Shows me what I've missed
To be a part of all the answers...
My wish
I've run from you before
And closed this door
To be a part of anything
Shows me what I've missed
To be a part of all the answers...
My wish
I'll miss you anyway
And I'll miss you anyway
