

Hot Hot Riot

Ultraviolet Sound

We live in a factory
Compromising, analyzing
They want more and more of me
Their expectations cultivating

It spins around inside of me
It spins inside my head

It's getting under me
Behind the front of me
Head up on top of me
A hot hot riot
They're hanging over me
Trying to get a hold of me
It's only causing me a hot hot riot
A hot hot riot
It's burning out the light in me
A hot hot riot

I will change the formula
Everything I want to be
But the one thing they don't understand
A million things inside of me

It tears away a part of me
It's tearing you apart

It's getting under me
Behind the front of me
Head up on top of me
A hot hot riot
They're hanging over me
Trying to get a hold of me
It's only causing me a hot hot riot
A hot hot riot
It's burning everything in me
A hot hot riot

TV's reality and music is an industry
We push up the celebrity, our bible is a magazine
A triple x society that overeats and never sleeps
How can we find inner peace if we don't know what to believe
A hot hot riot
Hot hot riot

It's getting under me
Behind the front of me
Head up on top of me
A hot hot riot
They're hanging over me
Trying to get a hold of me
It's only causing me a hot hot riot
A hot hot riot

(2x)
A hot hot riot
It's burning everything in me
A hot hot riot
