

Suck My Kiss

Ultraviolet Sound

Where you go tonight?
Can you take me with you for a ride?
I am waiting for the right situation
All my invitations have been denied

Where you gonna dance?
Alone your eyes closed in a trance
Don't you need some real interaction?
A chemical attraction, some in sense

Hooo don't you know you're lonely?
Can't you feel the blood is in your veins?
It's such a shame
That you've giving up on love
To kill the pain

Give me lips
Suck my kiss
Give me love
Can't get enough

Give me a lil fix
Just one lick
Come on baby, suck my kiss

La la la la la la
La la la la la la la
La la la la la la
La la la la la

Where you gonna sleep?
Won't you need some body
