

## Face To Face

Ultravox

There's nothing left  
The system's gone  
It's ticking over, over, over  
Right before our eyes

It's all over  
Hear them cry  
It's all over  
Hear them sigh  
It's all over  
Nothing but time, time, time is all we had

Face to face  
Room to room  
It's ticking over

The streets are bare  
There's nothing there  
It's all gone now, gone now, gone now  
Right before our eyes

It's all over  
Hear them cry  
It's all over  
See them die  
It's all over  
Nothing but time, time, time is all I had

Face to face  
Room to room  
It's ticking over

It's all over  
Hear them cry  
It's all over  
Hear them die  
It's all over  
Nothing but time, time, time is all we had

Face to face  
Room to room  
We're taking over, oh!
