

# Moon Madness

Ultravox

One more day in a vacuum  
Drags me down  
One bright thought in a black room  
Drags me down, down, down  
While it drags me down  
Two of us tired of it all  
And it drags me down

Picture us on a snow white charger  
Picture us in a secret hideaway  
Picture us with a million dollars  
Moon madness again

One more life at a dead stop  
Drags me down  
Like a cat in a cage in a big top  
Drags me down, down, down  
Like strangers who nod on a station  
Drag me down  
Run dry on our conversations  
Drags me down

Picture us on a wild adventure  
Picture us as we sail around the world  
Picture us with some happy moments  
Moon madness again

One more day in a vacuum  
Drags me down  
One bright thought in a black room  
Drags me down  
One more head hits a wall  
And it drags me down  
Two of us tired of it all  
And it drags me down

One more life at a dead stop  
Drags me down  
Like a cat in a cage in a big top  
Drags me down  
Strangers who nod on a station  
Drag me down
