

No Turning Back

Ultravox

You think you're so safe and secure with your kind
But don't be surprised if you're losing this time

Learn to stand on your own
Realise, and believe in yourself
'Cause I won't be waiting

I hate to leave
But there's no turning back
You may think that I'm wrong but hear what I'm saying
You have to believe
There's no turning back
I know where I belong, I can't go on waiting

I watch as the tears fall colliding down your face
Stand up to your fear now before it gets too late

I won't be here at your side I pray
Get a hold on yourself
'Cause I won't be waiting

I hate to leave
But there's no turning back
You may think that I'm wrong but hear what I'm saying
You have to believe
There's no turning back
I know where I belong, I can't go on waiting
