

# While I'm Still Alive

Ultravox

Playing the game  
With the chips on my shoulder  
Checking in the mirror  
As my coffee cup gets colder

Stagger and swagger  
Combing my hair  
If tomorrow's not there  
Then at least today's all mine

While I'm still alive  
While I'm still alive  
While I'm still alive

Strutting my stuff  
I'm blagging the damage  
From coupling with headlines  
I was suckled on salvage

The fighting's exciting  
The age is dramatic  
I'm crackling with static  
Just jiving to survive

While I'm still alive  
While I'm still alive  
While I'm still alive

Take a stroll down the side roads  
I know you want to  
A shock in the dark  
Can be good for your heart, oh yeah

While I'm still alive  
While I'm still alive  
While I'm still alive  
While I'm still alive

Scuffling along  
On the crest of a wave  
Laughing and grafting  
Or jerking and working

Striking a match  
Where life is a gas  
I need the flash  
To make it all worthwhile

While I'm still alive  
While I'm still alive  
While I'm still alive
