

# Who'll Save You

Ultravox

Please yourself  
Only solitary kind  
Be yourself  
When there's no one else around

There's hope around  
Story told to man to foe

Who will save you?  
Who will still be seen?  
Who will break it?  
Who else will save it?  
Tell me who?

Bleed yourself  
Only you know jewels you found  
Feed yourself  
Before your're driven and around

There's hope around  
The lies you told come down to talk

Held this chain  
To let it go to late

And I will wait for you  
The distance for you to

Who will save you?  
Who will still be seen?  
Who will break it?  
Who else will save it?  
Tell me who?
