## **February MMX**

The old man sings In the face of fear

The circular mantra Why are we here

The audience is blind To what takes place

In the pillory Life is a stage

The vertical lights of death In codes of red and blue

Birds in black and white And the drums of wwii

Tattooed in numbers Genocide is suicide

We are our own enemy And the last judgement

Our children are hurting In the final performance

The newborn is still The rest is silence Ulver
