Umphrey's McGee

I didn't know things were supposed to be this way I wasn't told of this before But had I known about this fall for some time Maybe I could've been or could've known I once was dropped among this crowd

I didn't know things were supposed to be this way I wasn't told of this before, it's all right Was all I heard, it will blow away, away When it's faded from my mind Gone, without this time, it's fading fast
