

# Alarm Bells

Una Healy

Oh, you hurt me so bad  
You got us caught up in this mess  
All the love that we have  
Is it falling from the clouds?  
Oh, you kick me when I'm down

Baby I, see dark white lies

Alarm bells going off, but I still want you  
Heart is pounding, is this really true?  
I hear it in my head, what's going on?  
I feel it in my heart, could I be wrong?  
Alarm bells going off, but I still want you

Could this really be you?  
You're the one that I miss  
How are we supposed to fix  
All the love that we have?  
Is it all out of joy?  
I'm only tough up to a point

Baby I, see dark white lies

Alarm bells going off, but I still want you  
Heart is pounding, is this really true?  
I hear it in my head, what's going on?  
I feel it in my heart, could I be wrong?  
Alarm bells going off, but I still want you

My love for you will never change, never change  
What we have is stronger than the strain, oh woah

Alarm bells going off, but I still want you  
Heart is pounding, is this really true?  
I hear it in my head, what's going on?  
I feel it in my heart, could I be wrong?  
Alarm bells going off, but I still want you

Alarm bells going off  
Alarm bells going off  
Alarm bells going off  
Alarm bells going off
