

Enemy of the Sun

Unanimated

As a god i came forth upon a world of

flames

like a fucking beast i conquered the

beauty

my cold black tongue spoke of dark

and hunger

the blood of my mouth, demons...

Mayhem... Man!

Return of mayhem, final damnation

divide et impera, world of flames

darkness eternal, enemy of the sun

souls of blackness, world of flames

the moon is guiding me to the other

side

the flames are leading me i enter the

dark

i am the demons seed i conquered the

beauty

wings of death carry me upon a world

of... Massacre

return of chaos, darkness eternal

world of flames

return of mayhem, final damnation

divide et impera, world of flames

darkness eternal, enemy of the sun

souls of blackness, world of flames
