

Don't Know How (Not to Love You)

Uncle Kracker

I can learn to live alone and move on with my life
There's a million things that I can do to occupy my time
I can wake each morning, I can go about my day
I can fumble through my words until I find a few to say
But the hardest thing I've had to do since we've been apart
Is learning how to deal with all this pain inside my heart
'Cause I don't know how, don't know how
Don't know how not to love you
I don't know how, don't know how
Don't know how not to love you
I can work all day or I can hang out every night
I can do the wrong things and pretend that they're alright
I can make believe that everything is cool
And put on the face that covers up the lies of a fool
But I don't know how, don't know how
Don't know how not to love you
I don't know how, don't know how
Don't know how not to love you
You said that time would ease the pain
But I still hear your voice whisper my name
Since you've been gone my world stands still
You said I'd forget but I never will
Don't know how, don't know how
Don't know how not to love you
I don't know how, don't know how
Don't know how not to love you
I can write a song and make the whole world laugh or cry
I can use some words to paint a vivid picture in your mind
I can use my hands to wipe the dust off this guitar
And let the music that I'm playing take my mind off my heart
But I don't know how, don't know how
Don't know how not to love you
I don't know how, don't know how
Don't know how not to love you
You said that time would ease the pain
But I still hear your voice whisper my name
Since you've been gone my world stands still
You said I'd forget, but I never will
Don't know how, don't know how
Don't know how not to love you
I don't know how, don't know how
Don't know how not to love you
Don't know how, don't know how
Don't know how not to love you
I don't know how, don't know how
Don't know how not to love you
