

# I Got Drunk

Uncle Tupelo

Well I took a fifth, and I poured me a shot  
And I thought about all the things that I haven't got  
And I drank that down, and I poured me some more  
Kept drinking and pouring till I felt the floor

I got drunk and I fell down  
I got drunk and I fell down

Another slow day in this damn town  
Keep asking yourself "why am I still hangin' around?"  
You spend half your time just staring into a beer  
What you need, you know, you can't find here

I got drunk and I fell down  
I got drunk and I fell down

Well I took a fifth, and I poured me a shot  
And I thought about all the things that I haven't got  
And I drank that down, and I poured me some more  
Kept drinking and pouring till I felt the floor

I got drunk and I fell down  
I got drunk and I fell down

I got drunk and I fell down  
I got drunk and I fell down
