

Wherever

Uncle Tupelo

When you get back from wherever
Let me know what it's like
And I'll tell you, I'll tell you
What it's like to watch you go

You say, "Hey, what's that mean?"
Make it sound so simple
And you say, "Hey, what's that mean?"
Don't make it sound so simple

So don't even try 'cuz this is your day
Even the sky might go your way
You know I'll get by, just bein' okay
So good tonight, but this is your day

When you get back from, who cares
I really
When you get back from, wherever
You sure let me know
