

Drive

Under The Flood

Your hands are shaking again
Can you feel it
But inside your awaking the fire within
You feel alive tonight
White knuckle ride of your life
And with everything inside we drive
We drive on

So you think you can run
And you think you can hide
Now you're under the lights

Because tonight we're coming alive again
Open your eyes
It's do or die
Will tone the line or take the wheel and drive

You got once in a lifetime
To stand up and shine
You won't be denied
Will you fall behind or take the wheel and drive
We'll tear down the walls
We're unstoppable

This is where we draw the line
For all the moments in our lives
But the fear would paralyze us all
But this is where we sacrifice
With every second we're alive
And with everything inside we drive
We drive on

So you think you can run
And you think you can hide
Now you're under the lights

Because tonight we're coming alive again
Open your eyes
It's do or die
Will tone the line or take the wheel and drive

You got once in a lifetime
To stand up and shine
You won't be denied
Will you fall behind or take the wheel and drive
We'll tear down the walls
We're unstoppable

Because tonight we're coming alive again
Open your eyes
It's do or die
Will tone the line or take the wheel and drive

You got once in a lifetime
To stand up and shine
You won't be denied
Will you fall behind or take the wheel and drive

We're coming alive again
Open your eyes
It's do or die
Will tone the line or take the wheel and drive
We'll tear down the walls
We're unstoppable
We're unstoppable
