## Miracle

## **Under The Flood**

She never wanted no she never wanted it to be Another loss, another regret It's been so long that I've become another memory Losing Progress

Hide come quickly she's a criminal And she knows it all too well I, I'm addicted I need a miracle

I'm helpless, from the way she looks at me
She's hopeless, and it pulls me underneath
I never wanted no, I never wanted it to be
Another waste, another regret
It's been so long that she's becoming all that I can see
And I'm fading.

Never thought that we'd become this lost

Hide come quickly she's a criminal And she knows it all too well I, I'm addicted I need a miracle Who's watchin over me? Tonight we'll give this life another try This time we'll draw outside the lines You'll be safe when it's over.

She's helpless
But I'm patient
And she's hopeless
