

# Some Will Seek Forgiveness, Others Escape

Underoath

I heard a voice through the discord  
A deluge of passersby  
I saw one gaze frozen in time  
Watching me passing by

And I swear I'll know your face in the crowd  
And I'll hear your voice so loud  
When you're whispering

Hey unfaithful I will teach you  
To be stronger, to be stronger  
Hey ungraceful I will teach you  
To forgive one another.

Here's my kiss to betray (Kiss to betray)  
Desperate to brush the lips of grace  
Do you feel hollow when you think of how I lied?

Oh sweet angel of mercy  
With your grace like the morning  
Wrap your loving arms around me  
Oh sweet angel of mercy  
With your grace like the morning  
Wrap your loving arms around me

Hey unfaithful I will teach you  
To be stronger, to be stronger  
Hey ungraceful I will teach you  
To forgive one another

Hey unfaithful I will teach you  
To be stronger, to be stronger  
Hey unloving  
I will love you  
I will love you  
I will love you

And Jesus I'm ready to come home  
Jesus, I'm ready to come home(home)  
home (home)  
I'm ready to come  
Hey Unfaithful  
Hey Ungraceful  
Hey Unloving  
I will love you  
Hey Unloving (Hey Unloving)  
I will love you
