BURN OUT BRIGHT
HOLD THE TORCH WHILE YOU CAN
DONT FADE AWAY
BURN OUT BRIGHT
HOLD THE TORCH WHILE YOU CAN
DONT FADE

I saw you pointing the finger it can't be getting CLEARER FADE, OUT well if I have to spend it for you I guess I'll be your little MARYTR FADE, OUT, FADE

we've all been down this road a time or two
and I swear I thought I was never coming home

Patience I know its hard enough for you we can't stand together
Patience I know its hard enough for you we can't stand together

I come up empty handed the ground is falling right where im shrinking FADE, OUT im just away in the dark they all talk about the day I fell apart FADE, OUT, FADE

we've all been down this road a time or two and I swear I thought I was never coming home

Patience I know its hard enough for you we cant stand together
Patience I know its hard enough for you we can't stand together

I stand before the crowd broken
I was once of this
I will never let them in no
wont let them intensify
and I never took my time while i was there
I never took the time

Patience I know its hard enough for you we cant stand together
Patience I know its hard enough for you we can't stand together

I never thought I'd see the end I never thought I'd see you
