

Dark & Long

Underworld

Thunder thunder lightning ahead
Long
Kiss you kiss you dark and long

Thunder thunder lightning ahead
Bright lights shine. bright lights shine
Thunder thunder lightning
Thunder thunder lightning ahead
Now i kiss you dark and long

Thunder thunder lightning ahead
Long
Kiss you kiss you dark and long
Long

Me I'm just a waitress she said
I went and bought a new head she said
I look at you. I believe in you she said
Screaming into the eye of the lens

I want to smash it up
I want to break it down
I want a wall of tears to wash away

Thunder thunder lightning ahead
Thunder thunder lightning
Thunder thunder lightning ahead
Now I kiss you dark and long

Filled with tainted girls and motel frills
What a laugh
You was done up there mate

Thunder thunder lightning ahead
I could kiss you dark and long
Thunder thunder lightning ahead
Now I kiss you dark and long
Shout your love
The stars are black
The church is sweet
My skin is hot
Thunder thunder lightning ahead
Now I kiss you dark and long
Shout your love
