

Dinosaur Adventure 3D

Underworld

What you waiting for, gazing
What you waiting, what you watching the skies for
What you waiting the holes are for water let the fall
Let the clothes in, let the clothes on, keep your clothes on

Whoever you love, whoever you look happy
I feel dazed, I feel day's orange glow
With a pineapple head walks in the sun
With a friend the mouse, with a friend the shadow

War machine, war machine
Wrap her arms, wrap her arms around me
War machine, war machine
Come to wrap her arms, tight to wrap her body

She moves fast, she moves slow
She moves down into the water
I remember her, I remember unnatural
I was leaving you

What you looking for babe
Your voice, I'm not incredible
Your voice is in desperation
I hear you, I hear bleeding

Between her arms are tight
Wrapped around her body
She moves fast, she look down
She won't look in my eyes

I remember her now
Her unnatural surprise
Oh

What you waiting for, gazing
What you waiting, what you watching the skies for
What you waiting the holes are for water let the fall
Let the clothes in, let the clothes on, keep your clothes on

Whoever you love, whoever you look happy
I feel dazed, I feel day's orange glow
With a pineapple head walks in the sun
With a friend the mouse, with a friend the shadow

War machine, war machine
Wrap her arms, wrap her arms around me
War machine, war machine
Come to wrap her arms, tight to wrap her body
