

The Fallen

Unearth

Broken, the seems burst in a rush
A cataclysmic horror story pens its' lust
Collision makes a call to change a certain path
Full disbelief takes its hold
Delay the wrath
Delay wrath

This is for the lost
This is for the fallen
You will remain in my world until I rest

This unrelenting test
The sting of memories
Has chased the shadow dark
To chase them long enough
Would end in certain death
No longer solid ground
Now grayed the autumn leaf
A barren road

Upon the pages of our path
Bringing great calamity
Contagious this loss will surely ruin
There's great calamity ahead

This is for the lost
This is for the fallen
For you'll remain in my world until I rest

Until I rest
You will remain
