

# Skin

Unheilig

I've wished it a thousand times  
I've been all that you want  
I've seen things through your eyes  
Distinguished right from wrong

You caress me, tell me  
That you love me like a storm  
Words are tender but they'll never substitute  
A heart's gone wrong

Let me crawl inside your skin  
I promise you won't feel a thing  
Let me crawl inside your skin  
I'll love you from within  
Skin  
I'll be your courage, flesh and blood

You've taken my body and soul  
I give you what you need  
If one of us has to go  
I hope it can be me

A pointed promise fills my head  
With shades of winter days  
The seeds of doubt will find me out  
And tip their hat to something strange

Let me crawl inside your skin  
I promise you won't feel a thing  
Let me crawl inside your skin  
I'll love you from within  
Skin  
I'll be your courage, flesh and blood

Skin, skin

[3x:]

Let me crawl inside your skin  
I promise you won't feel a thing  
Let me crawl inside your skin  
I'll love you from within

Skin, skin

I'll be your courage, flesh and blood
