

Dance In Your Freedom

Unhindered

See the dawn of a new day
Sweeping across the world
Hear the sound of a movement
Every heart be open
Every heart be open

He's the father to the orphan
Healer of the broken
Desire of the nations
Rising, rising, rising up

Chorus: Let heaven shout
The earth resound
With the songs of your kingdom
Let love arise
Your glory shine, as we dance in your freedom

He died for our freedom
Oh the grave could not hold him
Our sins are forgiven
Every head be lifted
He's Jesus the messiah
Savior the lamb of God
Rising, rising, rising up

Chorus

He's pouring out his spirit
On his sons and his daughters
He's calling to his children
Walk in love and power
He's declaring a revival from Oceans to distant shores
Hear all of creation,
Rising, rising, rising up

Chorus
