

# Holy Is Your Name

Unhindered

To a King who made the sky  
Universe opened every eye  
Cause all men to be redeemed  
All the earth and even me  
Every heart be opened wide  
May our God be glorified  
Let His praises resound  
King of Glory Love come down

Let all the earth rejoice  
And lift a shouting voice

You are my creator  
I'm gonna sing to you forever  
And let the world proclaim  
Holy is Your name  
You are my creator  
I'm gonna sing to you forever  
And let the world proclaim  
Holy is Your name

To a King who made the sky  
Universe opened every eye  
Cause all men to be redeemed  
All the earth and even me  
Every heart be opened wide  
May our God be glorified  
Let His praises resound  
King of Glory Love come down

Let all the earth rejoice  
And lift a shouting voice

You are my creator  
I'm gonna sing to you forever  
And let the world proclaim  
Holy is Your name  
You are my creator  
I'm gonna sing to you forever  
And let the world proclaim  
Holy is Your name

You're in my mind, You're in my heart  
You're always near, You're never far  
You bring me joy, You give me peace  
You love the world and even me  
You're in my mind, You're in my heart  
You're always near, You're never far  
You bring me joy, You give me peace  
You love the world and even me

You are my creator  
I'm gonna sing to you forever  
And let the world proclaim  
Holy is Your name  
You are my creator  
I'm gonna sing to you forever

And let the world proclaim  
Holy is Your name  
Yeah, holy is Your name
