

# One In A Million

Unicorn

I, I come from so far away  
And I, I'm searching my only way  
I, I'm living my life alone  
But tonight I'm ready for the storm  
Doing what I want  
Tell me if you give up 'cause I don't

They, they have so much breath to waste  
In lies made of arrogance and in prates  
And they together don't feel alone  
But tonight they won't laugh, no more  
Battle 's just begun  
Tremble 'cause the damage is done

One in a million day  
Into the higher state  
It's time to fly and break the chains  
In the endless space

We, we follow the destiny  
Our creed, for them is a mystery  
And we, tonight we are here to stay  
In our eyes there's no trace of pain  
now our glory rises  
They say we are deuced, we say brave!

One in a million day  
Into the higher state  
It's time to fly and break the chains  
In the endless space

I waited for today  
Since long time faraway  
In front of us they can't escape  
Join your hands and pray!
